WELCOME

Photography is a way of feeling, of touching, of loving. What you have caught on film is captured forever... It remembers little things, long after you have forgotten everything. -Aaron Siskind

Hello! I am so excited we get to be work together. I cannot wait to create some beautiful images for you and your family.

I want you to feel calm, prepped and ready to make the most out of our time together so we can capture those timeless memories to enjoy a lifetime.

Photography has been my driven passion for over a decade now, and I want to share some helpful information to get the most out of our mini session!

MINI SESSION TIMELINE

A QUICK OVERVIEW TO GET THE MOST OUT OF YOUR MINI SESSION EXPERIENCE. MORE INDEPTH TIPS BELOW.

GET THE FORMALITIES DONE

Enter basic information so we can be in contact. Pay your invoice to lock in your Mini Session appointment. Complete the shoot agreement, model release, and client questionnaire to complete the booking process.

PLAN YOUR OUTFITS

Do not match, coordinate. You want to complement each other's outfits by choosing colors that work well together. I find that if everyone is wearing the same clothing, people will tend to blend together and there will not be much pop and life to the image.

GET SOME REST

Get to bed early and (try) to have a good night's sleep. Happy children and well rested parents = beautiful photos.

MAKE SURE TO EAT

Fill up everyone's bellies before your session, there will not be time during your session to grab a snack. Everyone tends to not be happy when they are trying to wait after their session to eat and it will show in your photos.

PACK A BAG

Gather wipes, tissues, lint roller, touch up lip gloss for freshening up upon your arrival before your shoot starts. Bring a water if you need a drink for the kids. Also anything you want to incorporate: a blanket, kids toy, something special the kids can help focus on.

ARRIVE EARLY

Arrive 10 minutes early to give yourself plenty of time for last minute issues that may arise. Mini sessions run back to back and any amount of time that your late will directly impact the length of your session.

HAVE FUN

Most important your session should be fun and enjoyable. We want you to be yourself and have a wonderful experience. Relaxed families = beautiful memories.

6 POINTERS FOR A SMOOTH MINI SESSION

1. What to wear or not to wear, that is the big question! It is best to have your outfits ready to go several days in advance. Take plenty of time to try them on. You want them to look and feel great (I have more on this below). Doing this in advance will alleviate stress as picture day approaches.
2. Make sure you and your family are well rested! Go to bed early, if possible, the night before. Kids and adults both need their beauty sleep. A well-rested family is a family that is ready to rock out their photoshoot.
3. Amp it up. I love making the session enjoyable for your child. Have them mentally prepared for the whole process. You can talk to them about how much fun it will be. Tell them you are going to be meeting our new friend (my name). You can tell them about my cool camera, lights, and equipment. famous people go to photoshoots and make it interest them! The sky is the limit here.
4. A little bribe never hurt anybody, right? Bring a snack, favorite toy, noisemaker, blanket, basically anything that makes your child(ren) happy! We can use these as rewards for a job well done or just to get that perfect shot. My research shows that this will sometimes work on your spouse, too!
5. Top mistake alert: I HIGHLY recommend coming with a full belly. Waiting until after our photo-shoot can cause major problems. A hangry child, spouse, or even yourself probably won't enjoy the mini-session and have irritability. Keep your clothes photo-ready and clean by dressing for the shoot after you eat.
6. Because I book mini-sessions back-to-back, there is no space for wiggle room. Plan on being here ten minutes early! Being here early ensures you are ready to go when it is your turn. We want to be respectful of everyone's time and make the most out of your beautiful family's photographs!

FIVE STYLISH TIPS

to look amazing in your mini session!

• STYLING •

1. Coordinate your outfits, but do not match. Choose a simple color palette and go from there. This will give everyone the option to pick an outfit of their own, but still be subtle and fit the scene. Trying buying your outfits from the same store.
2. Avoid logos. This includes crazy prints and patterns! It will bring unwanted attention to the outfit and cause awful disortions to appear on the photograph that is not originally there.
3. Tone down the bright colors. Vivid shades tent to reflect and bring attention away from the face. Darker clothing tends to blend better with backgrounds and slenderize the subject. Light or neutral colors can look appealing and fresh. If you fear not looking slender in your photos, avoid wearing plain whites. Pair it with a jacket or scarf and you will be good to go!
4. Hair, makeup, and nails: Keep it simple. If you want your hair to be out of the way and not falling in your face; I recomment haveing it up, out of yoiur eyes. For makeup, make sure it will not rub off onto your outfit. Your nails should be nicely manicured and no chipped nail polish.
5. Accessorize! This brings visual interest in your look and makes it appealing. For jewelry, try a necklace to compliment your neckline or bracelets to accentuate your outfit. You could think outside the box and try a jacket, hat, or suspenders to bring the extra wow factor! These small added details bring so much texture to yoiur photos. Some accessories add varitey and may be used a props.
